

Conferenza su riciclo chimico PET a ottobre

Petcore Europe ha fissato la data del "2020 PET Monomer Recycling Forum" rinviato a causa dell'emergenza sanitaria.

14 aprile 2020 08:24

Petcore Europe ha fissato la nuova data del "2020 PET Monomer Recycling Forum", che avrebbe dovuto tenersi il prossimo 16 aprile a Bruxelles, rinviato a causa dell'emergenza Covid-19. Il convegno si terrà sempre a Bruxelles il prossimo 7 ottobre ed è stato diffuso il programma aggiornato, articolato su cinque sessioni più un momento di networking.

Alla sua prima edizione quest'anno, il forum si propone come momento di approfondimento e confronto sui processi di riciclo chimico di PET e poliestere mediante depolimerizzazione e riutilizzo del monomero così ottenuto.

PROGRAMMA

- 09:30-10:00 Registration & Welcome Coffee
- 10:00-11:00 First Session "PET monomer recycling – how does it fit in the bigger picture of PET circularity?" moderated by Wim Hoenderdaal, Chairman of the SIG
 - Welcome and Status Quo of PET Monomer Recycling and the SIG – Wim Hoenderdaal (Indorama)
 - Link to the Circular Plastics Alliance – Stephen Short (Petcore Europe)
 - Monomer recycling as one of the circularity pillars of PET – Marco Brons (Cumapol)
 - Panel debate
- 11:00-12:45 Second Session "Making all PET waste valuable raw material – feedstock challenges for PET monomer recycling" moderator Christian Crepet (Petcore Europe)
 - View from the Italian EPR – Antonello Ciotti (Corepla)
 - Market analysis of feedstock availability in Europe and possible solutions thanks to monomer recycling – Romain Roux (Axens, subsidiary of IFPEN)
 - Making all PET waste valuable raw material – feedstock challenges for PET monomer recycling – Martin Stephan (Carbios)
 - Challenges in collection, sorting and processing textile waste – Jeroen Bulk (Ioniqa)
 - Presentation to be confirmed - Garbo
 - Recycling quotes – waste legislation and attempts for change – a German example – Carsten Eichert (Rittec)

- Panel debate
- 12:45-14:00 Networking lunch
- 14:00-15:00 Third Session “Legislative Challenges to overcome for circular PET” moderated by Wim Hoenderdaal
 - Introduction to the topic – John Baker (Alpek Polyester)
 - Presentation on food contact regulation and PET monomer recycling – speaker to be confirmed
 - Panel debate
- 15:00-16:00 Fourth Session “PET monomer recycling – Common view on communication and language” moderated by Stephen Short
 - Name of the technology
 - Name of the recycled product
 - 10 FAQs
- 16:00-16:45 Fifth Session: Presentation on LCA by CE Delft and Q&A session moderated by Wim Hoenderdaal
 - Development of a tool to compare CFP of various recycling routes compared to the linear model – Geert Bergsma (CE Delft)
 - Preliminary results of comparing PET monomer recycling with virgin, mechanical recycling and incineration with energy recovery – Wim Hoenderdaal
- 16:45-17:00 Way forward and closing
- 17:00-18:00 Networking Drink
